

Exceeding expectations

A new standard in mud mixing performance

May 2017

Robert Turner

Meeting drilling demands

Services that deliver

- * **Performance Audits** of existing mud mixing solutions to meet drilling demands
- * **Rig Survey** for optimizing design and installation for new installations or upgrades

Expectations

Mixing ability

- * Speed: effective mixing at the required rate
- * Capacity: does throughput = effective mixing rate?

Equipment and configuration

- * Piping: mixer feed and pit discharge
- * Pump sizing
- * Hopper ability for sack and bulk mixing

Customer stories

North Sea bulk mixing
North Sea rig upgrade

Solution delivery

- * Comprehensive performance evaluation of mixing flow loop: equipment, configuration, sizing, operations
- * Improvement recommendations to effectively mix faster: best practices, expert experience, engineered configuration

Thank you
